cindyamasch@gmail.com

I am a registered Health and Safety Professional with 14 years of diverse Health and Safety experience in various industries such as: Auditing, Consulting, Forestry, Sawmills, Aluminum Smelting, Industrial Construction, Heavy Equipment, Automotive, Pellet Mills, Manufacturing, First Nations, Government and Municipality.

Located in Sunny Kamloops, BC, I am here to serve your needs, and I can deliver a wide range of services from Auditing to program building to training.

I have a vast amount of experience and knowledge, and I will strive to make your business, my business.

Why? Because I realize that Business and Safety are two complete entities. And it is never about Safety versus Production; it is about Safe Production.

My audits will be thorough; yet casual and will only minimally affect business operations.

My recommendations will follow the SMART approach: Specific, measurable, attainable, Realistic and Timely.
